

How Do I Register for a NW Boces Course

This lesson will show you how to use our registration software.

1) Make sure you are on our registration site at: <http://nwbores.gosignmeup.com/> - This is the homepage.

<https://nwbores.gosignmeup.com>

From

Until

Course#	Course name	Start date	Time	Location	Default sort
061614	Add+Vantage MR (Math Recovery)	6/16/2014	8:30 AM	BOCES Downstairs Conference Room	 Add to cart
					\$995.00
062314-1	(LDC) Literacy Design Collaborative	6/23/2014	8:30 AM	Moffat County District Office	Add to cart

2) The first thing you will want to do is Login using your Username and Password. Accounts have been set up for anyone who attended any BOCES-hosted PD events since 2011. If this is your first time using the new registration system but you have been an educator in one of NW BOCES member or associate member districts; you most likely already have an account set up.

The screenshot shows the NW BOCES website. At the top right, there are links for Home, Create account, Calendar, and a highlighted Login button. Below the navigation bar is the NW BOCES logo and a banner image of a mountain. A login form is open, showing the username field filled with 'jdalke@nwbores.org' and a password field with masked characters. Below the password field are radio buttons for User type: Student (selected), Instructor, and Supervisor. A 'Forgot your username or password?' link is also present. A 'Login' button is at the bottom of the form. Below the login form, there is a search bar and a shopping cart icon labeled 'Empty'. The main content area is titled 'Browse Courses' and features a sidebar with filters: 'Show All', '+ Literacy', '+ Mathematics', and '+ Technology Integration'. The main table lists courses with columns for Course#, Course name, Start date, Time, Location, and Default sort. Two courses are visible: 'Add+Vantage MR (Math Recovery)' and '(LDC) Literacy Design Collaborative'. Each course has an 'Add to cart' button and a price tag.

Course#	Course name	Start date	Time	Location	Default sort
061614	<u>Add+Vantage MR (Math Recovery)</u>	6/16/2014	8:30 AM	BOCES Downstairs Conference Room	Add to cart \$995.00
062314-1	<u>(LDC) Literacy Design Collaborative</u>	6/23/2014	8:30 AM	Moffat County District Office	Add to cart

Try logging in with your username as your full school email (ex. jdalke@nwbores.org not just jdalke) and your password as password.

Click “Forgot your username or password?” if you get the error “Invalid username or password” or email jdalke@nwbores.org or sstuart@nwbores.org for support.

If you are new to a member district of NW BOCES, or are from a school outside NW BOCES, or are certain you have not attended any NW BOCES hosted PD since 2011- scroll to page 4 for directions on how to create an account.

3) Please fill in (or check for accuracy) all information in the student, affiliation, and demographic boxes below by clicking on the pencils to edit. You will not be able to register for a course until at least the * information has been supplied. You can change your password if you would like. Please make sure to record your username and password for your records.

This is in "Grid View"

8) On the home page, you can search for courses in different ways. You can also change how the courses are displayed.

1) You can search for specific courses using the search bar. You can search by course name or if you know the date of the first class by course number. Course numbers are typically the date of the first class in a six digit format. (So if a class starts June 10, 2014 the course number is 061014.)

2) You can also search for courses by looking through the categories on the left hand side.

3) You can switch between a “Grid View” and “Tile View” to see more/less information.

4) You can also choose how many courses to show on the page and navigate to specific pages using the navigation tools at the bottom.

This is in "Tile View"

9) Here is the courses information page. You can see more information about the course here.

062614 The Neuropsychology of Reading Disorders: Diagnosis and Intervention

This workshop, presented by Steven G. Feifer, D.Ed., ABSNP, will examine reading from a brain-based educational perspective, and classify reading disorders into four distinct subtypes. There will be a discussion matching each reading subtype with specific evidence based interventions. The use of neuropsychological assessment addressing multiple cognitive constructs including phonological processing, working memory, executive functioning, and orthography will be discussed as the primary means to pinpoint specific reading disorders in children. Specific emphasis will also be placed on the role of functions such as executive functioning and working memory as the primary cognitive constructs that allow children to hold, manipulate, and self organize information for more effective recall. Lastly, the 90 minute dyslexia evaluation will provide practitioners with a multi-method approach to both assessment and intervention. The expected learner outcomes are: 1) Discuss the four universal truths of reading and explain why relying solely upon IQ scores, or a curriculum based measurement approach, can be misleading when identifying reading disorders in children. 2) Introduce a brain-behavior model of...
